Consist at the Digital Week in Kiel

Consist Software Solutions is sponsoring the second Digital Week in Kiel from September 8 to 15, 2018. Experts from Consist will be speaking at the 4th Big Data Conference on September 10, 2018 and the Digital Occupations event on September 11, 2018.

Kiel – Consist is sponsoring the Digital Week in Kiel as a “friend”. The event will run from September 8 to 15, 2018, at various locations in Kiel. Once again this year, Consist will be contributing presentations for the varied, informative program:

At the 4th Big Data Conference, taking place at the Chambers of Commerce and Industry in Kiel (IHK Kiel) from 1pm to 8pm on September 10, 2018, Dr. Torben Ott, Senior Consultant in Data Science at Consist, will be speaking about “Machine Learning in Practice”. The motto for this year’s Big Data Conference is “Big Data and Artificial Intelligence: the future for your company or just a topic for the golf course?” Registration is required due to a limited number of spaces for participants.

The Digital Occupations event at the RBZ Wirtschaft in Kiel on 09.11.2018 from 8am to 1:30pm aims to raise participants’ awareness of digitalization and to find out that the effects of digitalization on jobs are very complex. Nicolas Dohrendorf, Senior Consultant in Digital Transformation at Consist, will be speaking about “Videogaming your Data – Big Data in Games and Business”.

About the Digital Week

Digitalization in various aspects of our lives is affecting us all. The second Digital Week in Kiel will focus on the following issues: How will our everyday lives change in the long term as a result of the new possibilities? What will a normal working day look like in the future? Which visions do digital start-ups have? Which processes are currently changing in established and traditional companies? How will we learn at school and throughout our lives in the future? How do democracy and political awareness change in a digital society? #diwokiel creates a space for exchanging ideas, networking and joint learning in the fields of industry, education & science, politics & society, health and culture & entertainment.
