Touchable science

Consist supports the Nacht der Wissenschaft (Night of the Sciences) in Kiel

Consist Software Solutions is a sponsor of the first Night of the Sciences in Kiel on September 30, 2016. The event is free of charge and should bring science closer to every enthusiast from kindergarten age up.

Kiel – The Kiel IT service provider Consist Software Solutions is sponsoring the first Night of the Sciences on September 30, 2016 in Kiel. More than 100 activities are on offer at eleven locations from 3:00 PM to midnight. "We strongly welcome the Night of the Sciences and are happy to support it to reinforce the perception of the high-quality research and educational facilities in the region," says Consist Managing Director, Martin Lochte-Holtgreven.

Experiments for participation, laboratory tours, workshops, exhibitions, art activities and colorful talks about current research provide touchable science for all. Scientists invite children from kindergarten age and up, school children, students, and anyone else with interest in science to participate in the experimentation and discovery. Fun with learning and research is the focus of this special night.

Entrance is free. There will be a bus and shuttle service between the event locations available free of charge.

The project is supported by funding from the European Union as part of the HORIZONT 2020 Framework Program for Research and Innovation under financial aid agreement no. 722957.

Company Portrait

Consist Software Solutions is an IT service provider that recognizes your IT needs and supports them in three ways over the entire software lifecycle:

- **Projects** as a complete solution or for subtasks, for
  - new developments, Business Analytics / Big Data, integration, modernization and consulting
- **Managed Services** with individual service levels up to 24/7 for
  - application management and maintenance (bug fixing, modifications) as well as
  - system monitoring and operation (routine supervision, release management, error coordination)
- **Products** for innovative solutions in the following sectors
  - Business Analytics / Big Data and Security, as well as
  - IT management

Use our three-plus decades of experience in successful software development and maintenance for medium and large companies from various sectors. You can rely on us – because we thrive on taking over responsibility as your partner.
