The free app "Traumschiffe in Kiel" (cruise ships in Kiel) from Consist Software Solutions is now available to people interested in arrivals and canal passages of the dream ships in 2016.

Kiel – The popular Traumschiff app from Consist is now available with current data for 2016. It shows all canal passages in Kiel-Holtenau for the whole year, along with the arrival times of passenger ships and ferries with a minimum length of 50 m in the Kiel harbor.

So it offers a complete, always up-to-date overview of all cruise ships in the Kiel Fjord and the passages through the Kiel Canal. Ship lovers, hobbyist photographers, and water sports enthusiasts can get detailed mobile information at any time about the year the ship was built, its width, length, draft, gross tonnage, speed, passenger capacity, and the shipping company. Photos of the oceangoing giants as well as a live map with recommended observation points and position data for the dream ships in the Kiel Fjord and the Kiel Canal round out the app.

The app is available for the iOS and Android operating systems through the App Store or Google Play.
