Consist again nominated for the Grand Prix of Small and Medium Business

Whether the Consist Software Solutions GmbH from Kiel can repeat their success from 2011, this time as "Premier", is shown by the multi-stage selection procedures now started in Germany.

Kiel - Consist Software Solutions GmbH managed to win the Grand Prix of Small and Medium Business five years ago. All the more, the IT service provider is delighted to have been nominated again for this coveted award, this time in the category "Premier", which is only open to current award winners. However, there is still a long way to go to the actual price-fixing. After the nomination and a first selection check, 12 juries at regional level decide about the qualification for the final participation, which is then decided among the best remaining nationwide companies.

What is the Grand Prix of Small and Medium Business?

The Grand Prix of Small and Medium Business is one of the leading awards in the German economy - according to the isw study, it is the most important economic prize for the small and medium business. It is awarded by the Oskar-Patzelt Foundation, which was honored for its voluntary commitment in this respect in 2008 and 2016 with the Federal Cross of Merit.

What is special about this price?

Companies can not apply for the price themselves, but must be nominated by third parties. A further special feature is the fact that not only entrepreneurial achievements are assessed, but also the company's commitment to the region and society.

And what does this have to do with Hollywood?

In 1995, the award was given for the first time, then still under the name "Oskar of Small and Medium Size Business", which alarmed Hollywood. After a legal dispute, one agreed on the current name, under which the award was launched nationwide from 2005 onwards.
