ObserveIT receives six Cyber Security Awards

ObserveIT receives awards for Best and Most Innovative Insider Threat solution, Best Cybersecurity Company, Best Forensics Solution, Best Risk Management Solution and Best Database Security Solution

Kiel – The latest AWS breakdown at Amazon has shown that employees are not the only uncertainty factor for data security in companies, according to studies, but that they also lead to unintentional damage in most cases.

Would ObserveIT have been able to prevent server failures as with Amazon?

ObserveIT, the leading insider threat monitoring and analytics solution provider with more than 1,400 customers around the world, has won six prestigious security industry awards in February. "We are delighted about these Excellence Awards for our IT Security Partner," said Martin Lochte-Holtgreven, Managing Director of Consist Software Solutions GmbH. The IT service provider has been using ObserveIT since 2010 for comprehensive IT security solutions incorporating the latest data protection regulations and EU regulations for the German market. "Even unintentional user errors, as happened with the recent server failure by Amazon, can be prevented by ObserveIT." The application is able to block user activities in general and even hidden commands in scripts.

Therefore the awards for ObserveIT are not undeserved, which are in particular:

- Cyber Defense Magazine (CDM) named ObserveIT The Most Innovative Insider Threat Solution for 2017. The CDM INFOSEC awards are judged by CISSP, FMDHS and CEH-certified security professionals and honor next generation leaders in the IT industry.
- Two 2017 Cybersecurity Excellence Awards including Best Insider Threat Solution and Best Cybersecurity Company from the Information Security Community - a 350,000-member organization. These awards recognize the world's best cybersecurity products, professionals and organizations based on the strength of nominations and voting by members of the community.
- Three 2017 Info Security Product Guide Global Excellence Awards from the security industry's leading information security research and advisory guide including the Gold Award for Best Forensics Solution, the Gold Award for Best Risk Management Solution, and the Bronze Award for Best Database Security, Data Leakage-Protection/ Extrusion Prevention Solution.

How this multi-award-winning security solution works in practice can be seen at this year's CeBIT: In an exciting live simulation, Consist will show how IT security threats from the inside and outside can be averted at the Security Stage in Hall 6.

Company Portrait

Consist Software Solutions GmbH is a specialist in IT services and software. The IT service provider supports its customers throughout the entire software lifecycle, from development projects to maintenance in the operating phase, to supplementary big data and security products.

With more than 180 employees at the sites in Kiel, Berlin and Frankfurt, Consist is setting the benchmark for data analytics, IT security and managed services.

Founded in 1994 at the Kiel headquarters, the company continues its growth path, which makes Consist one of the most experienced IT service providers, thanks to proven mainframe competence and highly qualified specialists for innovative technologies. Awarded with the „Großer Preis des Mittelstandes“ Consist again received the plaque of honor in 2016.
